VIDIZMO.AI

Business Challenges in the Absence of AI Solutions:

VIDIZMO.AI

How Can VIDIZMO Solve These Challenges?

VIDIZMO.AI

With Ethical and Responsible AI Solutions, Development, and Services

VIDIZMO.AI

Computer Vision

- **Object Detection:** Identifies and classifies objects within images and videos to enhance automation and security.
- **Face Recognition:** Detects and verifies faces in multimedia content for security, compliance, and identity management.
- **Temporal Analysis:** Analyzes patterns and trends in data to extract meaningful insights and automate workflows.
- **Optical Character Recognition:** Converts printed or handwritten text in images and videos into searchable formats.

VIDIZMO.AI

Speech

- **Speech to Text:** Converts spoken language into accurate, searchable, and transcribable text for enhanced accessibility and analysis.
- **Text to Speech:** Transforms written text into natural-sounding speech to improve engagement, accessibility, and automation.

VIDIZMO.AI

Natural Language Processing (NLP)

- **Speech Recognition:** Accurately identifies and transcribes spoken words into distinct speakers to enable automation and analysis.
- **Language Understanding:** Interprets the meaning, intent, and context of text or speech for smarter AI-driven interactions.
- **Topic Modeling:** Analyzes large volumes of text to identify key themes and categorize information efficiently.
- **Translation:** Converts text or speech from one language to another, ensuring seamless multilingual communication.

VIDIZMO.AI

AI Bots

- **Conversational AI:** Enables human-like interactions through AI-powered chatbots and virtual assistants for seamless customer and business communication.
- **Intelligent Automation:** Automates repetitive tasks and decision-making processes using AI, improving efficiency and productivity.

VIDIZMO.AI

Predictive Analytics

- **Forecasting:** Uses AI-driven data analysis to predict future trends, demands, and outcomes.
- **Customer Behavior Prediction:** Analyzes past interactions and behaviors to anticipate customer needs, preferences, and actions.

VIDIZMO.AI

Tailored AI Services for Seamless AI Adoption

VIDIZMO.AI

AI Strategy and Consultation

1. Assessing Customer Needs
2. Creating AI Roadmaps And Strategies
3. Evaluating Existing Systems

VIDIZMO.AI

Custom AI Model Development

1. Computer Vision
2. Natural Language Processing
3. Speech and Audio Processing

VIDIZMO.AI

Data Services

1. Data Collection
2. Data Processing
3. Data Annotation

VIDIZMO.AI

Machine Learning Operations (MLOps)

1. Automating the Lifecycle of AI Models
2. Setting Up Pipelines for Continuous Integration

VIDIZMO.AI

AI Integration and Deployment

1. Integrate AI Models into Existing Systems
2. Developing APIs to Embed AI Capabilities
3. Cloud or On-Premises Deployment

VIDIZMO.AI

Tailored For Your Industry

Government

Energy

Construction

Healthcare

Public Safety

Transportation

Financial Services

Tourism

VIDIZMO.AI

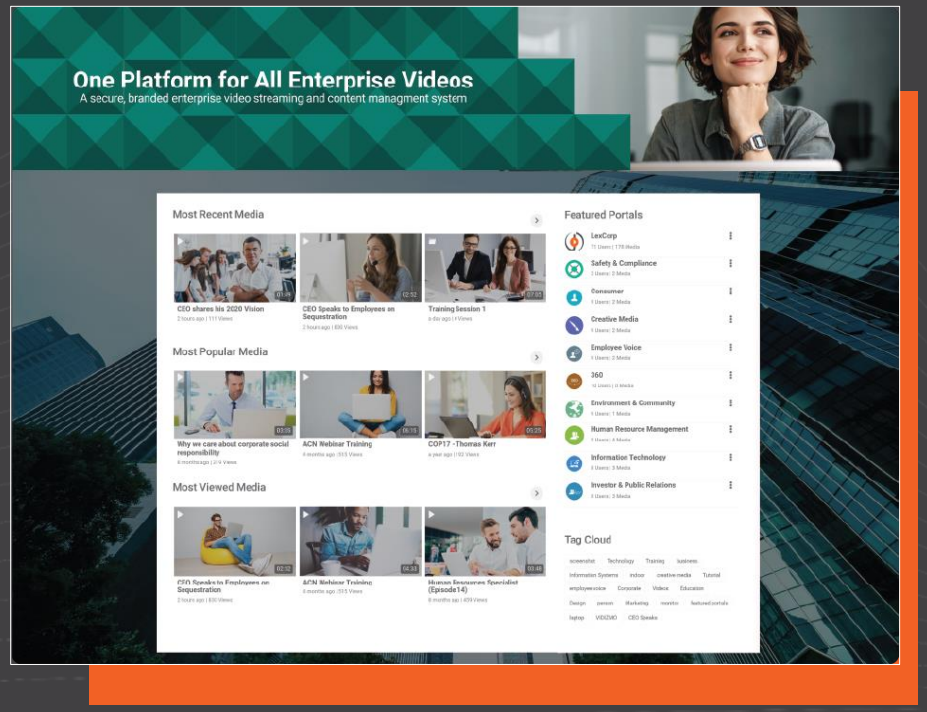
VIDIZMO's AI-Powered, Highly Configurable Products

VIDIZMO.AI

EnterpriseTube

An innovative video platform powered by AI to transform training, learning, and communication with transcription, translation, AI-powered search, and advanced analytics.

- **Automatically generate video chapters and summaries**
- **Deliver personalized content recommendation**
- **Analyze video visuals for deeper insights**



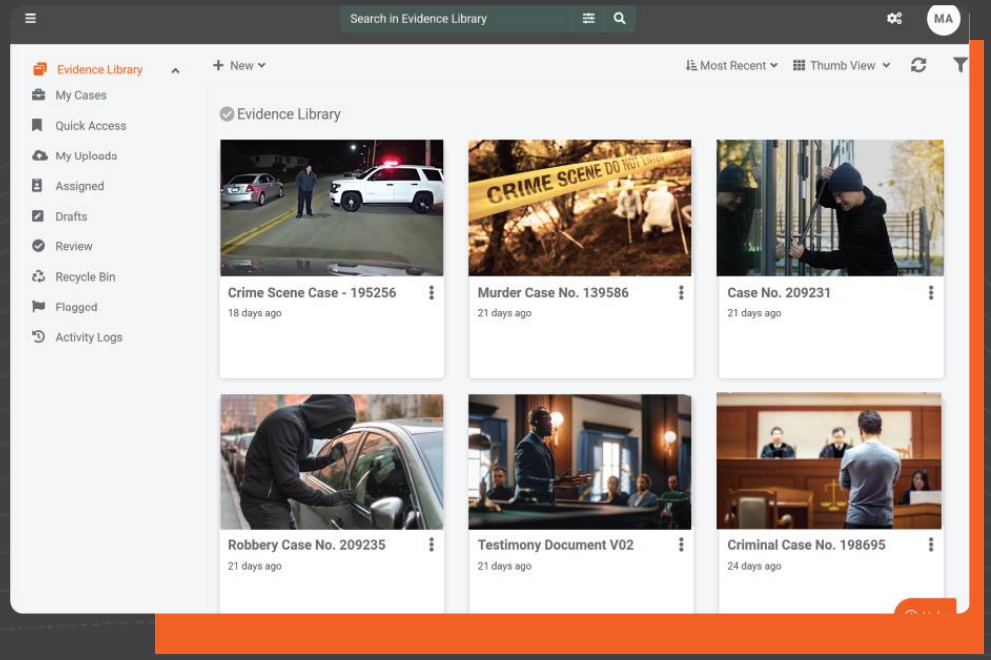
www.enterprisetube.com

VIDIZMO.AI

Digital Evidence Management System

Enables secure evidence storage, management, sharing, AI-powered transcription and search with CJIS compliance.

- **Links faces, weapons, and objects across evidence**
- **Identifies vehicles by cross-checking license plates**
- **Generates case reports and extracts insights**



www.digitalevidence.ai

VIDIZMO.AI

VIDIZMO Redactor

Redact, protect, and share audio, video, documents, and images efficiently with confidence using AI.

- **Automated redaction of PII**
- **OCR-based redaction & object tracking with AI**
- **Scalable redaction of large volumes of data**
