Challenges to Opportunities: AI-Powered Business Success

Operational Inefficiencies

Limited Business Insights

Repetitive and Manual Processes

Poor Customer Engagement

Legal Risk & Compliance

Lack Of Predictability

Computer Vision
- Object Detection
- Face Recognition
- Temporal Analysis
- OCR

Speech
- Speech to Text
- Text to Speech

NLP
- Speech Recognition
- Language Understanding
- Topic Modeling
- Translation

AI Bots
- Conversational AI
- Intelligent Automation

Predictive Analytics
- Forecasting
- Customer Behavior Prediction

Responsible & Ethical AI

VIDIZMO is committed to ethical AI development by ensuring transparency, accountability, fairness, privacy, and safety in all stages of the AI lifecycle. Our systems and processes are designed to mitigate bias, protect user data, align sustainability goals, and empower users through informed consent and feedback.

Tailored AI Services and Solutions For Your Industry

Industries

- Government
- Energy
- Construction
- Healthcare
- Public Safety
- Transportation
- Financial Services
- Tourism

AI Strategy & Consultation

- Assessing Customer Needs
- Creating AI Roadmaps and Strategies
- Evaluating Existing Systems

Custom AI Model Development

- Computer Vision
- Natural Language Processing
- Speech and Audio Processing
- Predictive Analytics

Data Services

- Data Collection
- Data Processing
- Data Annotation

Machine Learning Operations (MLOps)

- Automating the Lifecycle of AI Models
- Setting Up Pipelines for Continuous Integration

AI Integration & Deployment

- Integrate AI Models into Existing Systems
- Developing APIs to Embed AI Capabilities
- Cloud or On-Premises Deployment

Built on Top of Leading Technologies

- AZURE AI SERVICES
- aws
- OpenAI
- deepseek
- Copilot
- Llama
- PaLM 2
- G BERT
- YOLO
- deepFace
- 飞桨 PaddleOCR
- G Tesseract OCR
- spaCy
- Vision Transformer

AI-Powered, Highly Configurable Products

EnterpriseTube

An innovative video platform powered by AI to transform training, learning, and communication with transcription, translation, AI-powered search, and advanced analytics.

- Automatically generate video chapters and summaries
- Deliver personalized content recommendation
- Analyze video visuals for deeper insights

Digital Evidence Management System

Enables secure evidence storage, management, sharing, AI-powered transcription and search with CJIS compliance.

- Links faces, weapons, and objects across evidence
- Identifies vehicles by cross-checking license plates
- Generates case reports and extracts insights

VIDIZMO Redactor

Redact, protect, and share audio, video, documents, and images efficiently with confidence using AI.

- Automated redaction of PII
- OCR-based redaction & object tracking with AI
- Scalable redaction of large volumes of data

VIDIZMO.AI

At VIDIZMO, we specialize in delivering video, audio, data, and AI-powered solutions to transform how organizations operate. From pioneering AI/ML capabilities like computer vision, NLP, and speech recognition to providing enterprise video content management, redaction, and digital evidence management solutions, we've consistently empowered 100+ enterprises and government entities to innovate and scale. Our journey reflects a commitment to driving growth and helping organizations thrive in the AI-powered future.
