

## Capture, Manage, and Share Critical Knowledge and Training Resources

Equip operational teams with secure, AI-driven tools to retain expertise, streamline training, and ensure compliance across every location.

## On-Going Challenges in the Energy and Resource Sector

In the fast-paced, safety-critical world of energy and resources, expertise, training, and compliance can make or break operations. But without tools to support it, organizations face unique challenges:

### ● Risk of Knowledge Loss

Financial institutions operate under stringent regulatory requirements like GDPR, FINRA, and PCI DSS. Staying compliant is essential but resource-intensive.

### ● Regulatory Compliance Complexity

Navigating complex compliance requirements like OSHA, EPA, and regional standards is both time-consuming and demanding.

### ● Information Overload & Retrieval Challenges

As videos, documents, and training accumulate, finding and managing specific resources becomes an operational hurdle.

### ● Workforce Safety and Training Needs

Remote and hazardous environments make safety training essential, yet conducting it consistently and effectively is challenging.

### ● Accessibility Challenges

Multilingual and dispersed teams need seamless communication, as safety or procedural messages misinterpreted across languages can lead to severe risks.

### ● Incident Documentation

High-stakes, error-prone documentation of incidents requires secure storage and efficient access for timely review and decision-making.

## How VIDIZMO Empowers the Energy and Resource Sector

VIDIZMO offers a comprehensive AI-powered solution to streamline and enhance the use of digital media in finance. Here's how:

### ● Preserve Essential Knowledge

Automatically index and tag training sessions, recorded meetings, and procedural videos, making them available on demand in a centralized library.

### ● Create Interactive Training Videos

Embed quizzes, polls, and handouts directly into your training videos to boost engagement and turn passive viewing into active learning.

### ● Host Live Sessions and Events

Go live to limitless users across the globe for employee training, company updates, compliance education, and more.

### ● Make Process Training Resources Effortlessly

Use the Content Creation tool to record your screen and webcam with noise suppression and virtual backgrounds to produce effective training resources.

### ● Automatically Transcribe and Translate

Use automatic transcription and translation in audiovisual files for multiple languages to make training and safety resources accessible.

### ● Track Training Progress

Track the progress of your training efforts with analytics for videos and quizzes and issue completion certificates to successful employees.

### ● Search Videos Using AI

Find the exact moment or topic in a video by recognizing spoken words, keywords, topics, and tags.

### ● Simplify Complex Topics with AI

Break down long, complex videos into digestible chapters and generate automatic summaries using AI.

### ● Use AI to Analyze Surveillance Videos

Detect activities in your surveillance footage, such as trespassing and robbery, to gain actionable insights that keep your sites secure.

### ● Maintain Worker Safety with PPE Detection

Automatically detect the absence of personal protective equipment (PPE) in videos to ensure worker safety and OSHA compliance.

### ● Brand the Platform Your Way

Customize the platform to reflect your organization's identity using logos, fonts, colors, and custom CSS.

### ● Deploy Anywhere

Reduce administrative strain and meet security requirements by deploying VIDIZMO on cloud, on-premises, hybrid, or SaaS.
