

Empowering Innovation with **Smarter AI Solutions**

Drive innovation, growth, and operational efficiency with VIDIZMO's advanced video, audio, data and AI solutions in the new AI economy.

www.vidizmo.ai

AI Solutions for Live and On-demand Processing

Operational Inefficiencies

Computer Vision

- Object Detection
- Face Recognition
- Temporal Analysis*
- OCR

Speech

- Speech to Text
- Text to Speech*

NLP

- Speech Recognition
- Language Understanding
- Topic Modeling
- Translation

AI Bots*

- Conversational AI
- Intelligent Automation

Predictive Analytics*

- Forecasting
- Behavior Prediction

Responsible & Ethical AI

VIDIZMO is committed to ethical AI development by ensuring transparency, accountability, fairness, privacy, and safety in all stages of the AI lifecycle. Our systems and processes are designed to mitigate bias, protect user data, align sustainability goals, and empower users through informed consent and feedback.

Tailored AI Services and Solutions For Your Industry

AI Readiness Consulting and PoC Delivery

- Customer Needs Evaluation
- AI Strategy and Roadmap Workshops
- Data Readiness Audits
- AI Roadmap and Strategy Development
- Evaluation of Existing Systems
- Proof-of-Concept Implementation

LLM Fine-tuning

- Industry-specific Text Generation
- Content Transcription and Translation
- Text Classification

AI Integration and Deployment

- AI Model Integration into Existing Systems
- API Development for Embedding AI Capabilities
- Cloud or On-premises Deployment

AI Chatbots and Virtual Assistants

- Internal Helpdesk (HR, IT) Response Management
- External Customer Support
- Automated Ticket Triageing
- Website Chatbot

AI-powered Business Process Automation

- Invoice Processing
- HR Onboarding
- Marketing Automation
- Document Extraction
- Claims Management
- Approval Workflows

Custom AI Model Development

- Domain-specific Model Development
- Computer Vision
- Natural Language Processing
- Generative AI
- Multimodal Large Language Models
- Intelligent Document Processing
- Speech and Audio Processing
- Predictive Analytics*

Data Services

- Data Collection
- Data Processing
- Data Anonymization
- Data Annotation

AI-driven Security and Monitoring (AIOps/SecOps)

- Anomaly Detection
- Log Analysis*
- Automated Incident Classification*

Machine Learning Operations (MLOps)

- AI Model Lifecycle Automation
- Continuous Integration (CI) Pipeline Setup

Enterprise Knowledge Search (RAG Systems)*

Knowledge Querying Across

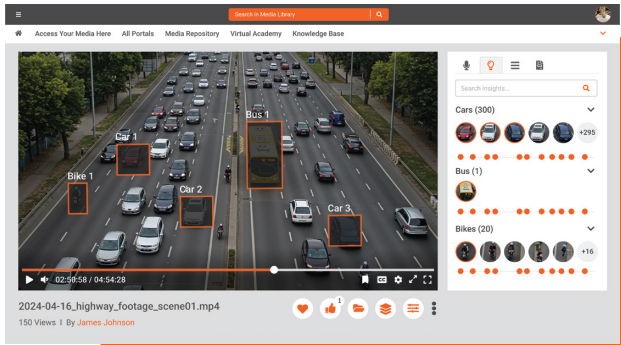

- Documents
- Videos
- Policies
- Product Manuals
- Compliance Archives

Built on Top of Leading Technologies

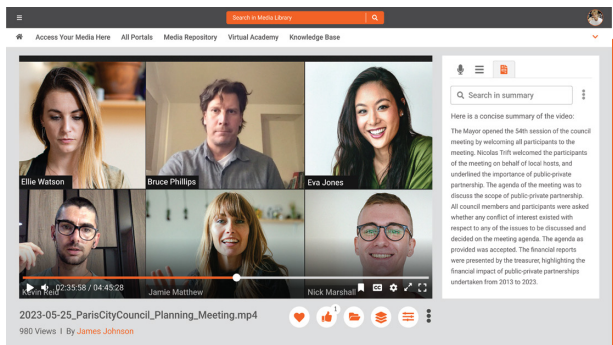

*Included in roadmap

AI-Powered, Highly Configurable Products

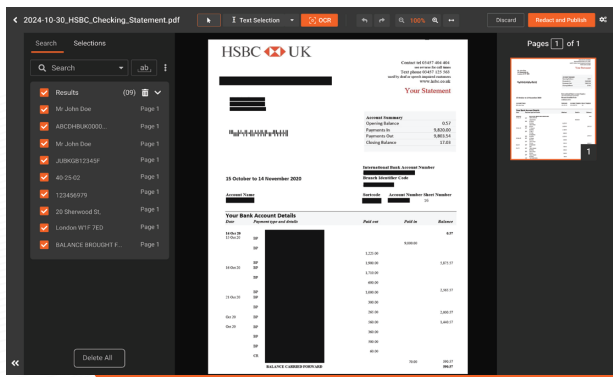

VIDIZMO AI Platform

Multimodal AI platform with advanced AI/ML capabilities and flexible deployment model.

EnterpriseTube

Stream live and on-demand videos and apply AI analysis for security and surveillance operations.

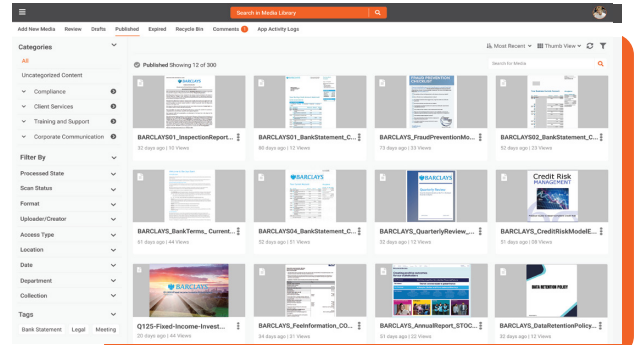

VIDIZMO Redactor

Redact, protect, and share videos, audio, documents, and images (regular and 360-degree) using bulk workflows with confidence using AI.

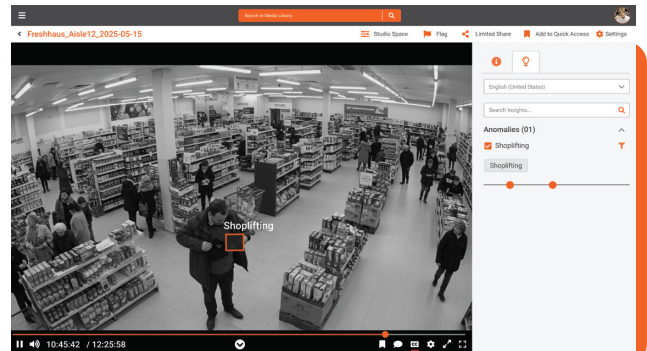

VIDIZMO.AI

At VIDIZMO, we specialize in delivering video, audio, data, and AI-powered solutions to transform how business and government organizations operate.

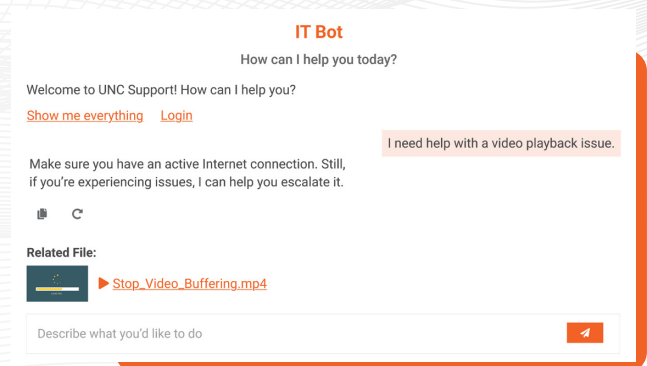

Document Management System

Securely store, manage, organize, and share documents to extract metadata and other insights.

Secure Evidence Platform

Manage and protect digital evidence and apply AI-powered workflows to analyze them.

VIDIZMO Chatbot

Retrieve data from videos, audio, documents, and images stored in your digital content library using retrieval-augmented generation (RAG).
